To preserve and enhance the quality of the graduate study body, and increase its size and diversity, the University must continue to improve support for graduate study. The newly appointed Graduate Student Funding Task Force seeks information and input from the campus community to help inform its work this academic year. Please join us at one of five Campus Forums for students and faculty/staff.

**CAMPUS FORUMS**

Provide quality education with accessibility

Recruit and retain high-quality graduate students

Secure sustainable and scalable funding
